

SPRING & SUMMER

COLLECTION 2024

Discover our SPRING & SUMMER

COLLECTION 2024

The beach gives us the ultimate summer feeling! Let's look forward to the longer days so we can spend as much time as possible with our horse. Time to enjoy outdoor rides at the beach or in a cool forest, a satisfying training, lunging, ground work, liberty dressage... Spending time with your beloved horse in every way improves your communication and strengthens your bond even more. This way, you and your horse are getting better together and will be able to reach your goals. Let's have a new season full of nice activities in and around the stable, because horses are our life.

The BR Spring & Summer Collection 2024 includes garments and equestrian equipment made of high-quality fabrics and components that serve you and your horse perfectly for your activities in and around the stable. Especially the soft Body Warmer Esther and Jacket Emily are real eye catchers. This fashionable short Jacket features a special heated press stepped pattern. Jacket Edward for men is provided with this beautiful, stepped pattern as well. Do you also love our new yellow shade "Harvest Gold"? A beautiful colour that gives us happy vibes!

Especially for youngsters - Eevolv Collection

Building a unique and strong bond with their pony is also essential to youngsters. The young riders want to be just as good as their instructor or that influencer they look up to. They are inspired by the way their idols act and dress. BR Eevolv is always there for those young riders who are developing rapidly, including in their taste in horse wear and clothing style. This results in a couple of new styles that have a more mature look for young riders who want to be taken seriously.

Go check
it out!

Materials

CST

Comfort Soft Touch is a highly comfortable and inventive fabric.

The extremely soft fabric is breathable, contains 4-way stretch and retains its shape perfectly. CST is made of a durable shape-retaining composition.

SMT

Soft Micro Touch is an exclusive, innovative fabric. This 4-way stretch fabric is water resistant, breathable and quick-drying. SMT consists of a durable and shape-retaining polyamide with elastane.

AMT

Alpha Micro Touch is an innovative, high performance fabric that wicks away moisture. Made from a microfiber polyester that is both lightweight and durable.

FDT

Fresh Dry Touch is an extremely quick-drying 4-way stretch fabric that offers maximum comfort and is durable. The soft and shape-retaining FDT has great breathable, moisture wicking and quick-drying qualities, which make it stay fresh and dry.

Cool Plus

Cool Plus is a breathable, moisture wicking fabric that transports sweat and moisture away from the skin, providing your skin with a fresh and cool feeling.

FLY EXERCISE RUG COMBO

The Fly Exercise Rug Combo is made of anti-bacterial mesh fabric to keep your horse fresh and dry. The fabric has a fresh lemongrass fragrance to repel insects and is water repellent.

RAIN RUG 1200D - 0 g

The Rain Rug is water- and windproof to resist all weather's twists and turns.

FLY LYCRA MASK

The Fly Lycra Mask is made of stretchy material for a perfect fit. It has an opening for the forelock, mesh eyes and is easy to put on the horse thanks to the zipper closure.

FLY RUG WITH INTEGRATED NECK

The Fly Rug with Integrated Neck has a Lycra part at the wither for more freedom of movement.
